13) Rain Outs and Refund Policy *(Effective 1/13/2017)*

1. In the event tournament play is cancelled due to inclement weather the following policy options take effect. The host tournament committee shall decide option.

Option 1. For scoring purposes only, play suspended during the round – All golfers must complete nine (9) holes for the round to be official. In this case the nine holes net score is determined by subtracting strokes from the holes gross score according to handicap for the holes played. For example: A golfer with a 10 handicap who has a par

four (4) on the number one (1) handicap hole shall have one stroke deducted from the score, thus the net score for this hole is three (3). This method is done for each hole played.

Option 2. For scoring purposes only, play suspended during the round - All golfers must complete nine (9) holes for the round to be official. Scoring either hole one (1) through nine (9) or ten (10) through eighteen (18), or any consecutive completed nine (9) holes by all golfers. Total all golfers gross score for the respective nine (9) holes then calculate their net score, by subtracting half their official handicap from the gross score to determine the tournament winner.

- A. Suspended play on either Saturday or Sunday – golfers with the lowest net score when play is suspended, and the round is official shall be declared the winners. Prizes shall be awarded according to the Section 4 of these Standards.
- B. Due to the variance in cost for each affiliate club to host a tournament, each individual club should be required to establish their own rainout policy in case of suspension of play on either Saturday or Sunday depending on their cost to host a tournament. Each club would be required to post and inform tournament participants of their intended rainout policy prior to registration.

6. Slow Play *(Effective 1/13/2018)*

1. The following standards will aid in eliminating all five-hour (5) or more rounds of golf at the majority of tournaments. Lowering the "Slow Play" frustration levels at all events leads to a better golf experience and more enjoyment for all.
